

THE BEST FITTINGS IN THE JOINT.™

# COPPER FITTINGS

▶ As originators of the solder-type copper fittings, our commitment to providing the highest quality fittings in the industry holds a special place. Today, our expansive line of **Wednesbury**® Copper Fittings are one of the industry's most complete offerings of fittings for copper piping systems from one source. Included are wrought and cast solder-joint pressure fittings, wrought and cast solder-joint DWV fittings and copper flare fittings. Our many years of engineering know-how and experience are reflected in the fine quality and workmanship of each copper fitting we manufacture.

- Copper Pressure Fittings
- Copper DWV Fittings
- Copper Flare Fittings

**Wednesbury**®

# End Feed Fittings

## Specifications of "Wednesbury W"

capillary fittings are produced according to European Standard EN 1254.

## Working Temperature and Pressure

Maximum operation pressure for corresponding service temperature refers to EN 1254
